

Year Two - Home learning 13.7.20

English / Science.

-Learning about animals and their habitats/ behaviour.

Marine Life.

Watch this video clip about animals under the sea and answer the questions below afterwards.

<https://www.bbc.co.uk/bitesize/clips/zmxqxn timer>

Task One

Questions

1. An octopus has 8 arms what are they called?
2. What are the flat fish in the video called?
3. Describe what the jelly fish look like.
4. How many animals can you see in the video clip? List them all.

Task Two - -What is an ocean habitat? Watch this video to find out!

<https://www.bbc.co.uk/bitesize/topics/zx882hv/articles/zsfkd2p>

Task Three - Now try the quiz to show what you have learnt about the ocean's habitats.

Task Four - Fact file

Complete a fact file about the ocean, you could describe all the creatures that live there and maybe even draw some of them.

Use google kids as a safe search engine to find out facts! Remember this should only be done with an adult. Keeping safe on line is important.

Google kids - <https://www.safesearchkids.com/google-kids/#.XwifcShKjIU>

Art.

Can you follow these video instructions to draw your own fish?

https://www.youtube.com/watch?v=VkFK_2cti7g

Send a photo of your drawing into school using this email:-

tjf43@catshillfirst.worcs.sch.uk

DT - Get making!

All you need is small box (recycling bin may have one), some coloured paper and some string. Can you create an underwater 3D art piece?

Send pictures of your under the sea scene using this email:-

tjf43@catshillfirst.worcs.sch.uk

Reading comprehension

Read the information below about under the sea and then answer the questions. Remember! Read the questions first. Use the key words in the questions to help you find the answers in the text.

Shark Fact File

Sharks are a type of fish but instead of having bones, their skeleton is made of cartilage. This is what your ears and the tip of your nose are made from. There are more than 500 different species of shark, including the great white shark, grey reef shark, hammerhead shark and tiger shark. Scientists believe that sharks have been in our oceans for around 455 million years. Some species of sharks prefer to live alone while others live in groups called a school or shoal.

Where do they live?

Sharks can be found in all of the Earth's five oceans: the Atlantic, Pacific, Indian, Arctic and Southern. Some sharks can even be found in freshwater lakes and rivers. Different species of shark live in different oceans depending on the temperature of the water. Most prefer warmer temperatures though polar sharks prefer colder water.

What do they eat?

What a shark eats depends on its species and where it lives. Most sharks are carnivores because they like to eat fish and other sharks. Some larger sharks eat dolphins, sea lions and small whales. Smaller sharks eat smaller prey such as clams, crabs and squid.

Some types of shark can be deadly, but only about 12 species have ever attacked humans. In fact, shark attacks are not very common. More people die from bee stings and natural disasters such as earthquakes and volcanoes each year than from shark attacks.

Shark Senses

Sharks have all the senses that humans have; smell, sight, touch, taste and hearing. The strongest is their sense of smell. Sharks can smell a single drop of blood in the water from 400 metres away. They can also hear fish moving from around 500 metres away. Sharks have very good eyesight and they can see in low levels of light.

Amazing Fact!

Most shark species would die if they stopped moving. As long as they keep swimming, water keeps moving over their gills, which keeps them alive.

Did You Know...?

A baby shark is called a pup.

Sharks - Questions

1. What is a shark's skeleton made of? Tick **one**.

- ☐ bone
- ☐ muscle
- ☐ cartilage
- ☐ skin

2. How many species of shark are there? Tick **one**.

- ☐ more than 500
- ☐ less than 500
- ☐ less than 200
- ☐ more than 700

3. How long have sharks lived in our oceans?

4. Name **two** of the world's oceans.

5. Tick whether each statement is **true** or **false**.

	True	False
Sharks are a type of fish.		
Sharks only live in seawater.		
Shark attacks are very common.		
Sharks have a good sense of smell.		

6. What are Baby Sharks called? Tick **one**.

- ☐ pugs
- ☐ sharklets
- ☐ shells
- ☐ pups

7. Why are sharks such good hunters? Explain your answer.

Fish project.

Reading/ story time.

Listen to this lovely story about a special fish.

The fish who could wish by John Bird.

<https://www.youtube.com/watch?v=sWb7KBT7KyA>

Song.

We love music and singing. Listen and sing along to this song:-

Over the meadow

Illustrated by Jill McDonald and sung by Susan Reed.

<https://www.youtube.com/watch?v=C6ljGXMMB-g>

Remember to use these links also to help with your learning this week.

The link below enables you to access free ebooks at your child's reading phase or level. You do need to sign up but it is free. There are also games and information that you can access.

<https://www.oxfordowl.co.uk/>

Story time.

The link below is for our Catshill First School and Nursery story page. Hear the teachers read a story.
