Unlocking the Learning

We are looking forward to receiving some fantastic examples of home learning. To support any children who find it more challenging to achieve their home learning we will be offering online support through our daily Google meet. We believe it is very important that every child has the opportunity to engage with learning at home. If you have any problems or concerns please do not hesitate to contact us via email above or epraise.

The project for this half term is "Enter the Nile". We would like these to form further tasks the children can complete while we are in lockdown and school is shut to all but key worker children. These tasks will not be set as part of our online learning and will give you the chance to really develop the children's understanding of Ancient Egypt.

We look forward to seeing the results and would like all the children to share their work via email so that we can share and celebrate each other's talents before the end of term. Thank you for your continued support.

Writing	Research	Creative
Research any aspect of the Ancient Egyptians. Perhaps you could study the pyramids or education in Ancient Egypt? Would you like to have lived then?	Why not find out what the roles and responsibilities of an archaeologist are. You could then create or dig up your own special artefact.	Can you create something from the Egyptian period? Perhaps a pyramid of your own using recycled materials?
Imagine you were around in Ancient Egypt, what types of things would you have done if you were a slave in those times? What would your day have consisted of? Write your diary.	Egypt has changed a lot over time, can you compare Ancient Egypt to modern day Egypt? How has it changed? Why do you think this is?	Can you make a traditional Egyptian meal? From Ancient Egypt or from modern day Egypt.
Write an imaginative story which starts.... How did I end up here in this pyramid..... How will it develop? Are you trapped in Ancient Egypt or do you find your way home?	The Egyptians believed in many Gods and each was different. Look at some of the Egyptian Gods and create your own. What would he be the God of? What would he look like?	Egypt has changed a lot over time, can you compare Ancient Egypt to modern day Egypt? How has it changed? Why do you think this is?

Topic

Welcome back to a new year! We're delighted to welcome you all to the first half of the spring term where we are working through remote learning to engage the children in our topic of Enter the Nile!

This term we are covering the amazing topic about Ancient Egypt and here are some of the things we will be doing:- learning how to mummify a Pharaoh's body; creating canopic jars and a hieroglyph alphabet; investigating rocks and their properties; learning about pyramid discoveries made by Howard Carter

We will be unable to hold our mummification workshop this term. However our challenge to you is to mummify your child at home with toilet paper and send us a photo (to the email addresses above).

English

How can you help your child in English?
Here are some great ideas

Talk to your child about the book you are reading, are they enjoying it? Why? What can they tell you about the setting or the characters? Would they like to meet the character?

Ask your child to select the noun, verb, adjective, adverb and conjunction in the sentence you have just read.

Talk to your child about what type of book they are reading. For example, is it a fiction book or a non-fiction book? Ask them to describe the features that tell you how they know this. For example, contents pages and index for non-fiction and characters and chapters for fiction books.

Maths

How can you help your child in maths?
Here are some great ideas.

Tables continue to be a priority. How well do your children know their times tables? Year 3 children should know 2, 3, 4 and 5 times tables. Year 4 should know all times tables up 12x12.

Help your child to develop their quick mental skills, so what is 3+13, or 15+6? Remember subtraction too.

Ask them about shapes in the environment. Can you find a square, circle, pentagon? Show me and tell me why it is a pentagon.

Use standard methods of addition and subtraction and multiplication.

PE Sessions

PE lessons will be on Tuesdays and Thursdays in school with home activities set for those who are remote learning. Not just Joe Wicks though, we promise!
