

As scientists, we will learn about how sounds are made and investigate changes in pitch and volume and how these can be altered. We will develop our scientific enquiry skills with a soundproofing investigation.

As writers, we will develop our use of fronted adverbials, paragraphing and inverted commas when writing dialogue. We will be using a range of expanded noun phrases, prepositions and conjunctions to add detail.

As mathematicians, we will be developing our skills with multiplying and dividing by 10 and 100 then developing our knowledge of all times tables up to 12 x 12.

As historians, we will be looking at the extent of the Roman Empire and its influence on Britain. We will be considering why they were so successful at invading and the legacy left behind when they left Britain.

## **Year 4 Spring 1 'I am Warrior'**

As designers, we will use our design and technology skills to design, make and evaluate a toy chariot for a Roman soldier.

Using our computing skills we will look at data, what it is used for, how to collect it and how to make use of the data and information collected. We will use a data logger app to collect data.

As artists, we will explore pattern and print and develop printing techniques. We will use cardboard and polyblocks to print from.

In PHSE, we will be looking at our topic, Safety First, where we explore the rights and responsibilities we have and how to make the right choices.

In PE we will be developing skills in Dance focusing on developing actions, control and movement phrases to share ideas, perform with increased control and evaluate each others performance.

As readers, we will be looking at how the author infers feelings, thoughts and motives of a character through language choices.

**Important information:** PE is on Tuesdays and Thursdays and will be outdoors where possible so please ensure your child is dressed appropriately.

In RE we will be learning about the type of world that Jesus wanted through his teachings and messages in his gospels. We will then link this with churches now and look at how they support the teachings of Jesus.

# Home Learning

## Unlocking the Learning

As part of our home learning, we would like the children to take part in one or more of our creative homework projects that link to this half term's learning. Our topic for this half term is I am Warrior, a History based topic.

We look forward to seeing the results and would like the children to email their completed projects to us by the week beginning Monday, 14th February, so that they can share and celebrate each other's talents before the end of term. We would ask that this project reflects six weeks' worth of work, and demonstrates the children's own work, although we really appreciate your support in helping them complete their homework.

Please remember that if your child is unsure of their home learning then we can help with resources to complete their home learning, or discuss ideas with them. Please just email us for support. We believe it is very important that every child has the opportunity to engage with learning at home and will support however we can with this.

### Roman Numerals

Learn Roman numerals and write some calculations using Roman numerals for your friends to solve.

### Roman Towns

Try to find a map of Roman Britain. Find out some of the names of towns and cities. What are their modern names?

### Volcano research

Look at the history behind the eruption in 79AD and make a volcano at home to recreate this. Have a go at using Science vocabulary to explain what happens when a volcano erupts.

### Roman Deities

Make a drawing of a Roman God or Goddess. Write a factfile or information about them.

### Online projects

Research Roman life using books from your local library. Which were the most useful? Recommend the best one to your classmates.

### Roman Villa

Create a Roman Villa out of junk materials such as cereal boxes. Use online images and pictures in non-fiction books to inspire the layout of your villa.
